

RESEARCH EXPERIENCES FOR GRADUATE AND MEDICAL STUDENTS (REGMS)

APPLICATIONS DUE JANUARY 6, 2023!

IF YOU ARE CONSIDERING A CAREER IN ENDOCRINE RESEARCH, REGMS IS FOR YOU!

REGMS is designed to provide opportunities for students to participate in collaborative research in global laboratories, receive expert advice from dedicated mentors, build professional networks by connecting with peers and other professionals in the field, and acquire skills that will help advance their academic and professional careers.

REGMS AWARDEES WILL:

- Receive a \$2,500 honorarium
- Participate in an 8-10-week summer research project in a lab under the guidance of an Endocrine Society member
- Participate in a series of educational webinars on career development topics
- Participate in virtual research talks to present their work to peers and mentors
- Have the opportunity to present your research at ENDO 2024 with a complimentary registration and \$1,500 travel award
- Receive career building opportunities to showcase their research in Society publications
- Improve leadership and team building skills through volunteer and service activities
- Participate in the Society's 2024 Early Career Forum with complimentary registrations
