ENDO 2023 Program

ENDO’s comprehensive program provides attendees the opportunity to learn about the latest developments in hormone science and medicine from renowned investigators, expert clinicians, and educators from all over the world.

This year’s education program features:

- more than 160 education sessions
- three plenary sessions including priorities on Health Impacts of Climate Change and Personalized Medicine And Gene Editing
- over 45 Meet the Professor sessions
- New Basic Science Pathways, including: Diabetes and Metabolism; Neuroendocrinology; Insulin Receptors and Signaling; and Reproductive Endocrinology, and oral abstract sessions and a robust poster hall for accepted scientific abstracts.
Welcome to the ENDO 2023 Meeting Planner

Use this online planner to search ENDO 2023 sessions. Searching is available by keyword or by the pre-filtered search options below. Session information is not fully complete. The Endocrine Society will continue to add and update session information on an ongoing basis.

Search Tips:
- To search for authors, enter Last Name=First Initial (ex. Smith=J), then review the results on the Authors tab.
- Click on the ? icon next to the search box for a guide to multiple search terms.

Early Career Forum

Designed exclusively for students and fellows, this interactive forum provides a robust schedule of career development sessions in basic science and clinical endocrinology. Hear from distinguished scientists and clinicians as they share advice and perspectives on career choices and the importance of building a strong career strategy to get you where you want to be.
Focus on Trainees and Early Career Professionals

**Early Career Forum**

- 8:15–8:45 AM | ENDO A to Z: How to Get the Most Out of Annual Meeting
- 8:45–9:25 AM | Secrets to Success: Stories of a Personal Career Journey
- 9:30–10:15 AM | Master the Art of the Job Search
- 10:20–10:55 AM | Interviewing Skills
- 11:10 AM–12:00 PM | Know Your Career Options: Clinical & Research
- 1:50–4:00 PM | Communications and Creating Your Personal Brand
- 4:10–5:00 PM | Get Your Groove Back! Resiliency and Wellness

---

Focus on Trainees and Early Career Professionals

**Excellence in Clinical Endocrinology Leadership**

Physician leadership is the future of healthcare. The Excellence in Clinical Endocrinology Leadership (ExCEL) program offers comprehensive leadership training and mentorship to early career physicians of communities underrepresented in medicine and science. Whether you are just beginning as an endocrine fellow or navigating the next steps in your career beyond fellowship, the ExCEL program will help you build leadership skills, explore opportunities for advancement, and expand your network of peers and colleagues.
Focus on Trainees and Early Career Professionals

Future Leaders Advancing Research in Endocrinology (FLARE)

November 15, 2022

The Future Leaders Advancing Research in Endocrinology (FLARE) program provides structured leadership development and in-depth, hands-on training in topics ranging from grantmanship to lab management. Basic science, clinical research trainees, and junior faculty from underrepresented minority communities who have demonstrated achievement in endocrine research are all invited to apply to FLARE. This program is sponsored by a grant from the National Institute of Diabetes and Digestive and Kidney Diseases.

2023 Endocrine Society Career Fair
Recruit the Nation’s Top Endocrinologists
June 16, 2023 | Chicago, IL | 2-4pm CT
Participants in the Endocrine Society Career Fair, held in conjunction with ENDO 2023 in Chicago, a must-attend event that attracts many qualified endocrinologists. Become a sponsor to have a table and your recruiters will get to speak face-to-face with job seekers during the two-hour event. After the event, you will receive a list of all registrants to add to your recruiting pipeline.

New Technology Session  Meet-the-Scientist  Rising Stars  Plenary Sessions

Plenaries:

Global Challenges: Health Impacts Of Climate Change
Fossil fuel, pollution, and climate change: An endocrinologist’s call to action.
Caren G. Solomon, MD, MPH – NEJM
Healthcare Pollution: Time to clean up our act.
Jodi Sherman, MD – Yale University.

Endocrinology of Chronic Stress and Burnout
The Endocrine Basis and Implications of Stress and Its Management.
George P. Chrousos, MD, ScD - National and Kapodistrian University of Athens.
Stress and Burnout in Modern Medicine: Drivers and Solutions.
Colin P. West, MD, PhD – Mayo Clinic.

Future Therapies: Personalized Organoids & Gene Editing - Real-Life or Fantasy?
Ethical issues related to stem cell and organoid research.
Insoo Hyun - Harvard.
Applications of iPSC-derived beta cells: An opportunity for personalized medicine for patients with diabetes?
Jeffrey R. Millman, Ph.D. - Washington University - Saint Louis.
Science Pathways

Science Pathways are topic-specific tracks that occur daily in the same location during ENDO, providing you with in-depth knowledge in an easy-to-follow program.

Basic Science Pathways
Diabetes and Metabolism
Neuroendocrinology
Nuclear Receptors & Signaling
Reproductive Endocrinology

Sexuality
Leadership
Dominance
Relationships
Decision-making
Prosopagnosia
Partnering
Aggression
Personality
Emotion
Stress
Basic Science Pathways

Science Pathways
Diabetes and Metabolism
Symposia

Nuclear Receptors in Inter-organ Communication in Health and Disease
Acinar & Beta Cell Crosstalk in Pathogenesis of Pancreatic Cancer, Panreatitis & DM
Pediatric Obesity: Update on Determinants, Complications and Management
Novel Perspectives on Insulin Secretion
Brown Fat Biogenesis: Tissue Complexity and Cell-to-Cell Communication
Transgenerational Effects of Endocrine Disruptors
Artificial Intelligence and Machine Learning in Endocrinology
Special Format Symposium - Thyroid and Pregnancy
Biomarkers of Gestational DM: Prevention of Progression & Future Type 2 DM?
Glucagon: Past, Present and Future
The Yin and Yang of Systemic Metabolism and Cancer
Structure and Activation of Insulin, IGF1, and Hybrid Receptors
Science Pathways

Nuclear Receptors & Gene Regulation

Symposia
- The Evolution of Hormone-Dependent Cancers: Challenges and Opportunities
- Novel Steroids, Novel Enzymes and Novel Sites for Steroid Synthesis
- Androgen and Estrogen Control of Mitochondrial Function
- Orphan Nuclear Receptors at the Crossroads of Inflammation, Immunity, and Cancer
- Are We Done Yet? Can We Still Improve on NR-Targeting Agents in Hormone-Dependent Cancer?
- Mutant is as Mutant Does: Vulnerabilities of ESR1 Mutant Breast Cancers
- Novel Differential Glucocorticoid Receptor Agonists to Treat Endocrine Disease
- Nuclear Receptors and Co-Regulators in Inflammation, Disease, and Regeneration
- Ramping Up the Anti-Cancer Immune System
- Timing is Everything: How Nuclear Receptors Function as Clocks

Science Pathways

Reproductive Endocrinology

Symposia
- Innovations in Reproductive Science
- Brain and Body Collide: Severe Mental Illness and Glucose Dysregulation
- Special Format Session - Challenges and Opportunities in Reproductive Medicine
- Continuous Glucose Monitors: Are You Using Them Correctly?
- Special Format Symposium - Recent Advances in the Assessment and Management of PCOS: New Insights and Updates from the 2023 International Evidence-Based Guidelines
Science Pathways

**Neuroendocrinology**

**Symposia**

- Neuroendocrine Dysfunction and Pituitary Deficiencies After Traumatic Brain Injury
- Novel Perspectives on Insulin Secretion
- GnRH at 50: Forging Into the Next 50 Years
- Post-Transcriptional Regulation as a Mediator of Hypothalamic Pituitary Function
- Hidden Dangers in Dietary Supplements, Natural Products, and Endocrine Disruptors
- Circadian Timing and Female Reproduction
- Estrogen Action on Brain, Metabolism, and Reproductive Behavior

Continuing Medical Education and Maintenance of Certification

Continuing Medical Education (CME)

The Endocrine Society is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The Endocrine Society has achieved Accreditation with Commendation.

The Endocrine Society designates this live activity for a maximum of 28.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Maintenance of Certification (MOC)

By attending ENDO 2018, you are eligible to earn a maximum of 28.5 American Board of Internal Medicine (ABIM) Medical Knowledge MOC points. American Board of Pediatrics (ABP) diplomats can earn 20 ABP Part 2 MOC points.
Ancillary Symposia with CME/MOC - ENDO 2023:

With CME/MOC:

Challenges in GH Deficiency with Novel Long-Acting Therapies
Thursday, June 15, 2023, 7:00–9:00 PM
Supported by: Novo Nordisk and Clinical Care Options (CCO)

More Than Weight: Treating Obesity with Comprehensive Care to Cardiometabolic Disease
Thursday, June 15, 2023, 7:00–9:00 PM
Supported by: Novo Nordisk and the Institute for Medical and Nursing Education (IMNE)

Advances in Delaying the Onset of Type 1 Diabetes: What Do You Need Now and in the Future?
Friday, June 16, 2023, 6:00–8:00 AM
Supported by: Provention Bio, the France Foundation, and DocMatter

Expert Updates on the Latest in the Development of Weekly Insulin Formulations
Friday, June 16, 2023, 6:00–8:00 PM
Supported by: Lilly and Clinical Care Options (CCO)
Ancillary Symposia with CME/MOC - ENDO 2023:

Expert Updates on the Latest in the Development of Weekly Insulin Formulations
Friday, June 16, 2023, 6:00–8:00 PM
Supported by: Lilly and Clinical Care Options (CCO)

Concepts to Practice: Evolving Landscape of CAH Management
Friday, June 16, 2023, 6:00–8:00 PM
Supported by: Neurocrine Biosciences, Inc. and Medscape

Thyroid Eye Disease: Comanaging a Clinical Conundrum
Saturday, June 17, 2023, 6:00–8:00 PM
Supported by: Horizon Therapeutics and Vindico Medical Education

Controversies in Cushing’s Syndrome/Cushing’s Disease (CS/CD) Diagnosis and Management
Saturday, June 17, 2023, 6:00–8:00 PM
Supported by: Recordati Rare Diseases, Inc. and CMM Global
OTHER Symposia featured at ENDO 2023:

To name a few:

Type 1 Diabetes Fellows Series

4th International Symposium on Extracellular Calcium-Sensing Receptor (CaSR)

AE-PCOS Update Meeting

OTHER Symposia featured at ENDO 2023:

To name a few:

Meet the NIDDK Program Officer: June 16, 2023, 10:15 AM - 11:15 AM
Hyatt Regency McCormick Place – Burnham

Endocrine Nurses Society Symposium & Reception: June 16, 2023, 1:00 PM - 7:30 PM

Women in Endocrinology Annual Meeting: June 16, 2023, 6:00 PM
Be the first to see the new “UPDATES”:

- Pediatric Obesity: Update on Determinants, Complications and Management
- Recent Advances in the Assessment and Management of PCOS: New Insights and Updates from the 2023 International Evidence-Based Guideline
- Updates in Standards of Care for Transgender and Gender Diverse People Affecting Endocrinologists

Be the first to see the new “GUIDELINES”

- Treatment of Hypercalcemia of Malignancy in Adults: An Endocrine Society Clinical Practice Guideline
- Management of Individuals with Diabetes at High Risk for Hypoglycemia: An Endocrine Society Clinical Practice Guideline
- Endocrine Health Disparities in Pediatrics & Sexual / Gender Minorities: An Endocrine Society Scientific Statement
- Hormones and Aging: A Scientific Statement
Master Clinician – Beyond the Guideline

Gender-Affirming Hormone Therapy: Beyond the Guidelines

Challenging Cases in Water Balance

Clinical debates:

Is there a role for vitamin D supplementation for women at risk for osteoporotic fracture?

Should all (or at least most) patients with hypertension be screened for primary aldosteronism?

Does activating brown fat contribute to important metabolic benefits in humans?

Pre-consensual clitorophalloplasty in patients with DSD: A conversation on challenges in decision-making

Managing Lumps and Bumps in Thyroid: Mini-debate on molecular tests
How to “Advocate”

How to Advocate for your Science: Tools you can use to Teach Policy Makers that Research is Important

How to Advocate for your Patients & Practice.

RESPECT THE SCIENCE AND YOUR COLLEAGUES

FIVE overarching best Practices for Successful ENDO 2023

At the Conference

1. Get Briefed/ Plan Ahead for each day:

ENDO A to Z
FIVE overarching best Practices for Successful ENDO 2023

At the Conference

2. Out of box & Out of comfort zone:
Learn something new / meet someone new
At the Conference

3. Networking with peers:

There’s nothing like being in a room of like-minded people who want to “better” themselves. If your strategy is to be best-kept secret in your area, you will be missing a valuable opportunity. Avoiding peers for fear of others discovering your competitive advantage limits your own success.

---

At the Conference

4. Meet Experts & Influencers:

Face-to-face “hallway conversations” are more essential than ever.

Trust me, I’m the expert!
FIVE overarching best Practices for Successful ENDO 2023

At the Conference

5. Schmooze at Social Events:
   Have fun
   Be yourself
   Meet peers/experts
   ... in relaxed settings.

WHAT'S THE DIFFERENCE BETWEEN NETWORKING AND SCHMOOZING?
TWO BEERS.

engage!
Importance of Networking

Francesca Gino - Harvard Business School

“Skipping conferences is problematic...you're missing out on benefits of networking.”
“Today, more than ever ... networks are a key form of social capital for achieving goals.”

Doris Clark - Stand Out Networking

“The fact that technology has made it easier to interact with people across great distances and time zones actually makes face-to-face interaction even more valuable.”
Networking DOs & DO Nots

Focus on HOW and WHAT type of networking is good for your career

Don’t spend all of your time with co-workers that you see every day
Take initiative to create networking situations where you feel comfortable
Networking DOs & DO Nots

Focus on HOW and WHAT type of networking is good for your career

Don't try to be someone you’re not. This is very tiring and stressful

Always Listen More. Talk less

When you talk, you are only repeating what you already know.

But if you listen, you may learn something new.

Dalai Lama
Networking DOs & DO Nots

Focus on HOW and WHAT type of networking is good for your career.

Don't burn out. Be strategic & plan time to rejuvenate yourself at ENDO.

**Plan each day**

**Put Away the Smartphone**
(at least some of the time)
Go home stimulated

new ideas & recharged batteries
